🔒 SECURITY TIPS FOR EXHIBITORS

Protect Your Investment at the 2026 Oklahoma Hospitality Expo

Nothing can ruin a successful Expo experience faster than the loss or theft of valuable equipment, products, or personal belongings. Please help protect your exhibit by following these important security recommendations.

🔹 Secure Your Booth

You and your staff are responsible for safeguarding merchandise, equipment, and personal belongings during show hours and after hours. The Oklahoma City Convention Center provides general building security in public areas; however, there is no overnight security inside the exhibit hall.

💻 Protect Valuable Items

Never leave electronics, prototypes, laptops, tablets, cash, or other valuable items unattended. Consider hiring private security for irreplaceable or high-value items.

🛡️ Cover & Secure Displays

At the close of each show day, cover display tables and secure valuables out of sight. Never store merchandise or equipment beneath tables or displays, as these are common targets for theft.

📦 Stay With Your Exhibit During Move-Out

The highest risk for theft occurs during dismantling. Remain with your booth until all materials have been packed, sealed, labeled for shipment, or removed from the building.

📋 Carry Exhibitor Insurance

Exhibitors are encouraged to obtain insurance coverage for merchandise and equipment, including transportation to and from the Expo. Low-cost exhibitor insurance is available.

⚠️ **IMPORTANT:** The Oklahoma Restaurant Association is not responsible for lost, stolen, or damaged merchandise, equipment, or personal property.
